

Providing teacher education and English language courses and certificates, designing customized content for specific contexts, implementing an experiential learning approach to enhance learning outcomes, and increasing the capacity of organizations to provide TESOL education

70+
programs offered
worldwide

200+
countries in which
we've worked

70,000
teachers
trained

World Learning TESOL programs are developed and delivered by experts in teacher education, K-12 language program curriculum development, higher education capacity building, adult education, Universal Design for Learning, language program management, and school complementary programs.

We train educators, nonprofit leaders, and both pre-service and in-service teachers, as well as teach students English language in the U.S. and abroad. We offer a range of in-person, hybrid, and online certificate courses and full programs to meet all needs and levels—including specialized courses such as English for the workforce or how to teach in an online environment.

We also partner with universities, schools, and government agencies to implement customized modules designed for teaching English in specific content areas such as digital and media literacy and environmental education.

Experiential learning is a foundational approach of World Learning's and School for International Training's TESOL program design. This approach to learning provides time for guided experiences, reflection, theory, and practical application.

“ The training I received was valuable, providing me with knowledge and skills that can be effectively applied in the classroom. The insights and techniques I acquired through the training will enhance student engagement and facilitate a more enriching learning experience. ”

Essential Skills in English Language Teaching & Teacher Training, Indonesia

World Learning's Approach to TESOL

PROBLEM

English language proficiency is linked to upward mobility and increased opportunities yet large segments of the world's population do not have access to adequate English language instruction.

OBJECTIVES

PROVIDE

locally relevant & contextualized education & training services

FOSTER

learning experiences that lead to greater learning outcomes in the classroom

EMPOWER

local English language education communities and stakeholders

ENSURE

participation from a diversity of members from the global English language education and learning community

CORE EXPERTISE & SOLUTIONS

WE OFFER CONCRETE SOLUTIONS

EXPERIENTIAL LEARNING:

Programs designed and delivered based on an experiential learning approach providing clear connections to the learning process through reflection, contextualizing content, and building life-long learning skills

UNIVERSAL DESIGN FOR LEARNING:

Programs developed to serve learners and teachers from all backgrounds, contexts, and learning needs

TESOL CERTIFICATE COURSES:

Accredited by School for International Training Graduate Institute; includes Best Practices in TESOL Certificate (customized for local contexts), TESOL for Young Learners, and TESOL Certificate for Teaching Adult Refugees

CUSTOMIZED PROGRAMS:

Programs for English language teacher training for specific contexts and for content-based instruction, including media literacy, climate education, service-learning, and social emotional learning

ENGLISH LANGUAGE LEARNING:

English language programs for refugees, university preparation, the workplace and fields of employment, and business

CAPACITY STRENGTHENING:

Programs for training-of-trainers, teacher development program evaluation, curriculum design, and revisions

FEATURED OUTCOMES

An average of **90%** high-satisfaction rate by participants in the TESOL Certificate

An average of **4.8 out of 5** satisfaction rate by participants in our online programs
